    - (a) same
    - (b) different
    - (c) synonyms

11. .... is a device that connects a computer to the internet via Wi-Fi.
    - (a) Ethernet cable
    - (b) Ethernet port
    - (c) Router

12. To protect your photos, they are shared ....
    - (a) low resolution
    - (b) high resolution
    - (c) flash memory

13. You can move around and reach different places using ....
    - (a) GPS
    - (b) Pictures
    - (c) E-Mail

14 .... is results from research and observation and can be proven and does not bear controversy.
- (a) Rumors
- (b) Facts
- (c) External Hard Drive

15 You can check the websites by............ which is the address of the website.
- (a) Facts
- (b) URL
- (c) Blogs

16 Uniform Resource Locator (URL) (starts with ....
- (a) The delegate's name
- (b) The protocol
- (c) The file path

17 If someone is exposed to .... should contact the Child Helpline.
- (a) Scam websites
- (b) government websites
- (c) educational websites

18 identifying............. is the first step in searching for information.
- (a) reliable sources
- (b) Files and records
- (c) Password management

19 One of the forms of ....is the arrival of a message from an unknown person asking you for your data to obtain a prize.
- (a) Internet
- (b) Phishing
- (c) Databases

20 Scam websites work to obtain ....
- (a) your computer
- (b) URL
- (c) your personal information

21 ...... is trying to get the bank account number of an adult in order to steal his money.
- (a) Your teacher
- (b) The hacker
- (c) A family member

22 when your travels, you can use ....
- (a) Discovery
- (b) GPS
- (c) Email

23 To open a folder, choose ....
- (a) Open
- (b) Folder
- (c) New

24 You must not use .... to search for information on the Internet
- (a) Keywords
- (b) Complete sentences
- (c) Data analysis

25 The cell in the Excel program can contain texts or ....
- (a) Numbers
- (b) Formula
- (c) All of the above

26 The Internet is .... a computer network.
- (a) closed
- (b) open
- (c) limited in space

27 To present research results in an interesting way, use ....
- (a) WhatsApp
- (b) Power Point
- (c) Excel

28 Backup copies of files are created on ....

a) Flash b) External hard disk c) Both

29 A photographer can protect his work from copyright infringement in several ways, including ....

a) Stealing data b) Watermarking photos c) Flash memory

30 You can protect your files from viruses or loss by doing..........

a) Turn off the device b) A backup copy c) Personal data

31 To get results that include the exact words mentioned in the search, we use ......

a) quotation marks "" b) AND c) NOT

32 To solve the problem of slowing down your computer........

a) Update apps b) Turn off the device and restart it c) Check the Wi-Fi connection

33 .... is a network used to share information and is less secure.

a) E-mail b) internet c) the intranet

34 The .... program is used to create mathematical tables and graphs

a) Word program b) Excel c) Power Point program

35 .... must be placed to protect images from copyright infringement.

a) Audio mark b) Delete the mark c) Watermark

36 When arranging information alphabetically in Excel, go to the .... bar.

a) Tool Bar b) Copying c) Cells

37 of the steps to solve the problem......

a) search through mail b) copy the problem c) identify the problem

38 Sharing information via the Internet is considered .... than the Internet

a) more secure b) less secure c) unreliable

39 To create a formula in Excel, click on the cell and write a ....

a) double quotes b) equals = c) brackets ()

40 When searching for information, you must first ......

a) Decide on a topic b) analyzing the results c) organizing the work

a) unreliable b) reliable c) informal

56 Pictures help to give information by ....
a) watching b) reading c) writing

57 When a person falls victim to scam website, you should contact.........
a) a friend b) mail c) Anti-Cyber Crime Department

58 Hackers can send ....
a) a gift b) virus c) a reward

59 Using passwords .... for different sites keeps your information safe.
a) same b) weak c) different

60 The program .... is used to perform simple formulas.
a) Word b) Zoom c) Excel

61 The first step in solving a problem is ....
a) Identify the problem b) Think of ways to solve c) Study solutions

62 When deleting some unwanted applications, it leads to ....
a) Slowness of the device b) Fast performance of the device c) Updating the software

63 If the Internet drive is running slowly, check ....
a) Connecting the printer b) Connecting to Wi-Fi c) Connecting the monitor

64 one of accessories computer devices that are used for storage ....
a) The printer uses software b) Wi-Fi c) Flash Memory

65 ..... used to preparation of graphs.
a) Excel b) word c) Zoom

66 In searches, you can use ....
a) word b) shopping sites c) keywords

67 .... used to insert images and use them later.
a) Microphone b) Scanner c) Printer

68 To create a new folder, use the .... command.
a) Copy b) Undo c) New

69 The files on your device can be organized using ....
a) Folders b) Copy c) Paste

70 When you search for information, you can construct ....
a) knowledge b) problem c) none of the above

71 In the steps to solve the problem, the second step is ....

a) identifying the problem b) studying solutions c) thinking about ways to solve

72 One of the solutions to the problem of slow loading.......

a) Restart the computer b) Download the software c) Update the software

73 In the search strategy, you must first ....

a) Sharing results b) Decide on a topic c) Choosing keywords

74 One of the common problems of a computer.

a) no internet connection b) scanner c) printer

75 Uses .... to organize from files.

a) file b) folder c) document

76 To move directly to the site you want, it is done ....

a) Click on the hyperlink b) Create an email c) Create a document

77 Files are stored using ....

a) microphone b) screen c) flash memory

78 .... measures the number of cycles your CPU carries out per second

a) Gigahertz b) MBPS c) Byte

79 You can use .... Application to buy anything on the internet.

a) Browser b) Braille c) E-commerce

80 .... consists of devices linked to the internet via Wi-Fi.

a) CPU b) IOT c) DSL

Question 02 put (√) or (×)

1. You can add main folder inside sub-folders to manage files. (   )
2. The Internet is a private network that is restricted to some people (   )
3. Identifying the problem is the last step in solving computer problems (   )
4. QR Code is used to get information quickly and easily. (   )
5. Mr Hiebert prefers virtual meetings for communication. (   )
6. Ethernet is more stable and faster than Wi-Fi. (   )

7. Digital Washing machine is an example is the Internet of Things ( )
8. Phishing is from ways that hackers go to get your password. ( )
9. Hybrid backup is a safer way to back up and store files. ( )
10. Both hard disk and Flash Memory are used for the same purpose ( )
11. Drones help us to navigate the places ( )
12. The international symbol for public domain is ©. ( )
13. You don't have to be careful when visiting new websites. ( )
14. Scare ware websites offers you a prize that never comes ( )
